

Transport Strategy for East Cambridgeshire Consultation

What transport improvements are needed in your area to help you get around? What is stopping you travelling by foot, bike or bus? How do you want to see your transport choices change in the future?

Cambridgeshire County Council has produced a draft Transport Strategy for East Cambridgeshire, and we would like to hear your views. The strategy encapsulates the way that the council is planning to address the transport related issues in the short, medium and longer term. We want to know if you fundamentally agree with strategies objectives and the way that the policies are being used to improve travel throughout the district.

The Action Plan proposes a range of local to major schemes to improve transport choices and reduce the impacts of transport throughout the district, and we want your views on these proposals.

Please visit www.cambridgeshire.gov.uk/TSEC for more details on the Transport Strategy for East Cambridgeshire consultation, including where to find out more information and how to let us know about your opinions on the draft strategy.
